SUGAR FREE-ZIES DAY

26 NOVEMBER 2021

Donating **1 MILLION** Icy Stix
to raise **\$1 MILLION**

It's been an incredibly hard year for our kids so we are making a difference by donating 1 million Sugar FREE-zies Icy stix to schools and youth sports clubs so they can turbocharge their fundraising efforts this term.

On the 26th November 2021 over two thousand Australian schools and Sports Clubs will celebrate summer and host their own Sugar FREE-zies Day to raise funds for a cause of their choice. Sugar FREE-zies Icy Stix Day is a day where everyone is a champion and where fun, laughs and spectacular times are the order of the day.

Payment for the Year 6 Excursion is due by the 29th November 2021.

Principal's Message

2022 Prefect Elections

This Friday 26th November we will be holding our Prefect Speeches.

Student Leaders play a very important role in a school. These leaders lead by example in class, in the playground and provide stability in our organisation of many of the school events that students engage in.

We wish all participants, the best of luck and we are sure they will be great leaders in 2022.

The successful group of students will be announced on our Presentation Day which is being held on the 8th December 2021.

Due to current restrictions, parents will not be able to attend. We will post photos on our school Facebook Page.

No Nasties Ice Blocks

SRC will be selling "No Nasties Ice Blocks " this Friday at lunch for \$1 each.

Refresher on School Zone Road

Rules # 8

INTERSECTIONS

You must not stop on or within 20 metres of an intersection. Children and young people are extremely vulnerable in the road environment. They need you to take extra care when driving and parking around schools. Penalties are greater for breaking the road rules in a school zone.

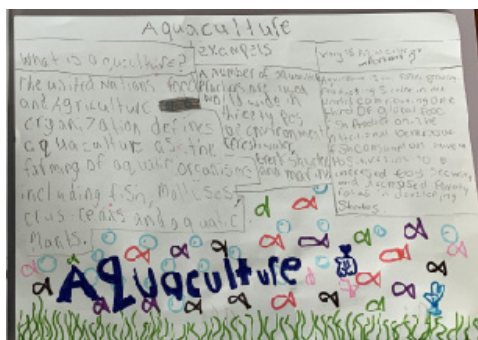

Find out more, <https://roads-waterways.transport.nsw.gov.au/roads/safety-rules/parking/parking-rules.html> *Produced with the support of Mid-Western Regional Council, NSW Police and Transport for NSW.

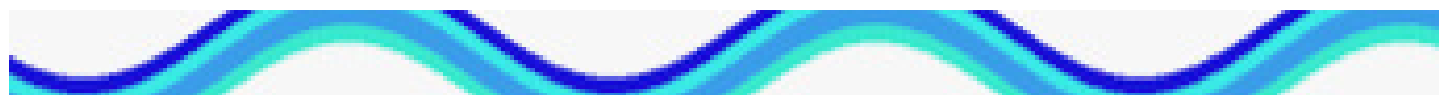

Class in Focus 6H

There is only a few weeks left for our Year 6 students. There are so many events to look forward to as the final year of primary school comes to an end.

This term, students have been studying Sustainability for our Environment. We researched and made a fact file about one of the ways people are working hard to make our environment sustainable for the future including Aquaculture, Organic Farming, Urban farming and Crops in season. Students were able to find examples of how this is already happening in Australia.

Every Week 6H conducts a scientific experiment. Last week, we learnt about Polymers and investigated whether a plastic bag half full of water could have pencils poked through without leaking. We were excited to see this experiment work and it helped us understand how polymers work.
